Important Dates

Last date for submission of Abstract:	30 Nov. 2022
Intimation of acceptance of Abstract:	02 Dec. 2022
Last date of submission of full paper:	09 Dec. 2022

Registration Fee

Delegates:	Rs. 600/-
Research Scholars:	Rs. 400/-
Students:	Rs. 200/-

Submission of the Abstract

The National Seminar is interdisciplinary in nature, so scholars from different disciplines may send their abstracts for the Seminar. A soft copy of the abstract not exceeding 300 words should be sent to the convener of the Seminar on the following email jshpgcnationalseminar@gmail.com. The abstract should contain the sub-theme on which the author intends to present the paper along with the title of the paper, Author's name, Institutional affiliation, Email address and the contact number.

Guidelines of the Abstract Submission

The abstract should be within 300 words written in English, Times New Roman style (Font size 12) and in Hindi, Mangal (Font size 14).

Guidelines for full paper Submission

Looking at the relevance of the theme of the Seminar, an edited volume has been proposed to be published which will contain the selected papers presented during the Seminar. The author has to submit soft copy of the full-length paper on the given email address in not more than 3500 words.

Payment of registration fee

- Registration Fee can be submitted at any time from 1st November to 10th December 2022 via offline mode only.
- There shall be no refund of registration fee at any stage.
- Certificate for actual participation and presentation shall be issued after the completion of the event.
- **No certificate shall be issued in absentia.**

Indian Education System: A Digital Shift

December 10-11, 2022

Organised by

Department of Sociology

J. S. Hindu P. G. College, Amroha

(Affiliated to M. J. P. Rohilkhand University, Bareilly)

Venue – J. S. Hindu P. G. College, Amroha

Dear Sir/Madam

It gives us immense pleasure to inform you that the department of Sociology, J. S. Hindu P. G. College, Amroha is going to organize two days National Seminar on "Indian Education System: A Digital Shift" on Decemer 10-11, 2022 at J. S. Hindu P. G. College, Amroha. The seminar will provide the important forum for the interaction of ideas and thoughts and exchange of information among academicians, professionals and Social workers on the issues related to practices, problems and perceptions regarding social values in contemporary society. We solicit your esteemed presence as guest for the National Seminar.

About the College

Jagdish Saran Hindu PG College Amroha was established in 1960 by Sahu Jagdish Saran Ji with the donation of more than One Lac rupees and nearly 17 acres of land. Agra University granted affiliation to the college in 7 subjects at Degree level. M. A. classes were started in 1965 in Eng., Pol. Sc., Eco., Sanskrit, Urdu, Edu. and Hindi classes at P.G. level were started in 1972-73. The college continued to make progress and had more than 600 students by 1973 and it was affiliated to M. J. P. Rohilkand University, Bareilly in 1975. More rooms were constructed with aid of U.G.C. and donations from Public and members of managing committee. B.com classes were introduced in 1980 and three rooms were constructed on Ist floor with donation money. U.G.C. grants were helpful in constructing Labs for Geography and Psychology. N.R.S.C. was constructed to provide sports facilities to the students.

Indian Education System: A Digital Shift

India is a developing nation, and witnessing Liberalization, Privatization and Globalization (LPG) since the year 1990. This had impact on every aspect of Indian society viz. economy, culture and education. On one hand, it has opened the market (in terms of developing infrastructure and academic space also) to the world leading to free trade and rapid development, and on the other hand, established outsourcing of services, promoted communication and internet accessibility and changed world into a global village. In Sociology, the concept of 'global village' is very much talkative and burning topic and given by Marshal McLuhan. He dealt with it in the terms of information, which is interconnected to every country across the world. He argued that electronic technology was shrinking the planet that "Time has ceased and space has vanished".

Education is holistic process that must focus on the overall physical, emotional, and social development. An educational individual is one who should be able to contribute toward economic growth and social development as well. Digital Education is a technique or method of learning which involves technology and digital devices. This is a new and broad technical sphere which shall help any student attain knowledge and gain information from any corner across the country. It is believed that Digital Education in India is the future of education and learning. Digital Education in India is the way forward to learning and gaining knowledge through the means of technology and digital devices. Covid–19 pandemic had briefly disrupted the school education system in India. Since the 1st lockdown in March 2020, all the states have responded to the Covid–19 situation with speed and innovation. The existing digital resources were leveraged to maintain continuity in students' education. Various channels have been defined by the Government of India for a widespread of the sources and means to provide education to different corners of the country, like SWAYAM (Study Webs of Active–Learning for Young Aspiring Minds), NPTEL (National Programme on Technology Enhanced Learning), (DIKSHA (Digital Infrastructure for Knowledge Sharing), Swayam Prabha, E–Pathshala, Shiksha Vani etc.

In the light of the national seminar 'Indian Education System: A Digital Shift' its urgent need to sensitize people regarding, digital, virtual, information, technology, and innovation. I am sure this national seminar will bring light for policy makers to make needful amendments accordingly.

Aims & Objectives

This seminar aims to provide a national forum to deliberate on emerging issues and challenges for Indian digital education system. It will be a good platform for exchange of ideas, sharing of knowledge, valuable discussions and interactions which can definitely benefit all the participants. This interdisciplinary national seminar intends to attain following objectives:
